THE GIFT TO MOUNT VERNON.-It was stated in yesterday's GAZETTE that a gentleman, whose name was not given, had re cently purchased and presented to the Regents of Mount Vernon, upwards of inirty acres of land adjoining that estate, the object being to prevent its purchase by parties who might put it to uses objectionshe to the Regents and detrimental to Mount Vernon. The gentleman alluded to s Mr. Jay Gould, of New York. On the 7th netant Mr. Gould, who, with his family, and to regain his health, had left New York in his beautiful and commodious steam yacht Atalanta without any display, quiet-ly sailed up the Potomac river, and dropped suchor a short distance above this city. It was ascertained that en route a landing had been made at Mount Vernon, but very little account of that visit has been pubished, and it was generally supposed that it amounted to nothing more than others made to the Mecca of America. While at Mt. Vernon he purchased 33 scres of land adjoining the property of the Mt. Vernon Association on the north, and has given it to the association, thus enlarging the Mt. Vernon estate to 2354 acres The purchase was completed yesterday, and the lady mangers of the association have returned their thanks to Mr. Gould for his handsome donation. The idea of the pur-chase and donation suggested itself as Mr. Gould was leaving Mt. Vernon after having passed two hours there very pleasantly with his family. In the course of his inquiries concerning the length and breadth of the property, he was impressed with the importance of protecting the mansion on the north by the addition of more land, and he promptly authorized the purchase of the tract mentioned, and added that it would afford him great pleasure to donate it to the ladies of the association as a mark of his appreciation of the excellent manner in which they carrying out the great trust imposed upon them in preserving the home of George Washington. The property just added to the estate was purchased from Lawrence and Elizabeth Washington, greatgrand hephew and niece of Washington, for \$2,500. Pheir father was the last mem, for \$2,500. Their father was the last mem, ber of the Washington family to sell his share of the original site to the ladies of the Mount Vernon Association. The new ad-dition will, after a few improvements are made, afford an unobstructed view up and down the river from the mansion, and at the same time prevent outsiders from building frame houses too near to the mansion or establishing pleasure gardens that might be objectionable to visitors to the tomb.

RAILEOAD ACCIDENTS .- A terrible acci dent occurred on the Virginia Midland rail-road about two miles from Lawyer's depot, below Lynchburg, about 6:30 yesterday af-ternoon. A special freight train coming from the south, at the point designated, came in collision with and demolished a hand-car containing Mr. John Martin, his tive children, and a Mrs. Sprouse, who were returning from the funeral, at Hickson's Crossing, of Mrs. Owen, a daughter of Mr. Martin. The collision was attended with fatal results, Lizzie Martin, aged seven years being killed and Mrs. Sprouse and all theother children being injured. John Martin, aged 3, had his skull badly crushed and his recovery is doubtful; three other children, George, Charles and Cordelia Martin, were slightly hurt, and Mrs. M. J. Sprouse was badly injured about the head. All of the injured were taken to Lynchburg and are now at the Home and Retreat, where they received the necessary medical and surgical treatment. The railroad company is in no wise reponsible for the accident as the hand car was on the track unauthorized. Mr. Martin, who is a merchant at Lawyer's, has the sympathy of the which he lives, in his double affliction.

A simple minded man named Samuel Reid, who recently came here from up the country, was struck by the out-going mail train on the V. M. road this morning and hart, having his head cut and his shoulder and arm bruised. He was sitting on a tie, near the track, at the switch house, just outside of the railroad yard when the train spproached, and disregarding the danger whistle was struck by the engine and knocked to one side of the track, with the above mentioned result. He was taken to his home on the corner of Henry and Wilkes streets, where his injuries were attended to by Dr. Powell.

CAR COUPLERS.—At the meeting of car builders, at Minneapolis, last Tuesday, the report of the committee on automatic freight couplets presented an elaborate exhaustive report and dwelt at length upon the difficulties encountered in making tests and weaknesses displayed in various couplers. Four thousand patents on car couplers have been issued by the Patent Office up to this time, and not one had been generally adopted. The report devotes a great deal of space to tests recently held at Burlington, and to descriptions of the various couplings. It recommends that the association adopt, the Januey coupler as a standard. By the term "Januey coupler" the report incudes all couplers which act on the same principle as the Janney and which will couple with it. The committee strongly urge that the au-tom, the coupler standard be adopted at this meeting, that the automatic coupler is a necessity, and before another year the State legislature will compel them to be introduced. The various roads will probably adopt differ 'nt couplers and a great deal of trouble would' be the result.

THE FREE DILIVERY .- The Alexandria correspondent of the Washington Star says:
"There appears to be an entirely unnecessary halt in the proceedings for the establishmen of free delivery of letters here. It is stated that the streets of the city will have to be named and the houses numbered before the order for free delivery can be made. The streets have been named for one hundred and thirty-eight years and the houses numbered for over thirty years. The few num-bers missing from some of the houses can all be put up in two hours, and it is expected that this will be done next week, and that Council will order street signs to be replaced when the old ones have been removed."

was in the city to-day on his way to Mt. De Sales College, Md., to attend the closing ex-ercises of that institution, where his daugh ters are pupils and where one of them graduates this session. He says the farmers of Fauquier have commenced harvesting and

that the wheat crop will be a fair one.

Mr. E. F. (Bud) Baldwin, formerly of this city, but now of Galveston, Texas, his wife and two children are here on a visit to Mr. J. T. Hill.

The condition of the Misses Moon, of Fairlax county, who were injured by being thrown from their buggy on Sunday last, is reported to-day to be favorable by their attending physician, Dr. Klipstein.

PRESENTATION.—A committee of students of the Episcopal Theological Seminary this morning, waited on Prof. J. J. McElhinney, of that institution at his residence on "The Hill" and presented him with a gold headed ebony cane. They also read a series of suitable resolutions adopted by the students regretting his retirement from the seminary, to which the Doctor feelingly responded.

PRESS EXCURSION .- The managers of the Pennsylvania Railroad Company have arranged a special excursion for the benefit of the representatives of the press of Philadelphia. Baltimore, Washington and this city, the objective point being Cresson Springs, Thursday, June 23, returning homeward the following Saturday.

MONETARY AND COMMERCIAL

NEW YORK, June 21.-The stock market pened weak and 1/2 to 1/2c lower. The weakness continued and the entire list moved off fractional amounts, though the loss was partially recovered later. Late in the hour a firmer tone was developed, and at 11 o'clock the market was dull and steady. Money easy at 4a5.

ALEXANDRIA MARKET. June 21,-Flour is niet and without material change, except common grades, which may be quoted a shade lower. The Wheat markets are nominally steady, with no recovery in tone and but little disposition to trade in futures; buyers seem to be holding off until the new crop begins to move, and there is nothing reported to encourage a speculative feeling; millers in this as in all other markets at this season willingly pay full prices for perfectly sound flinty old Wheats, but neither millers nor dealers will take hold of inferior and badly damaged lots, except at bottom figures. Corn is firm and fairly active. Rye and Oats are steady. Eggs, Butter and other produce are weak and easy on account of the recent extremely warm, weather.

Baltimore, June 21.—Cotton nominally steady, middling 11½. Flour quiet and steady. Wheat —Southern dull; red 91a93; amber 93a95.
